EYE ON ARBONNE

INDEPENDENT CONSULTANT,
NATIONAL VICE PRESIDENT

ROSELLEN JONES

TIME IS PRICELESS

Independent Consultant, National Vice President
Rosellen Jones Nation; Decatur, AL

When I decided to seriously embark on this business in December of 2004, I never dreamed I would be writing my *Eye on Arbonne* NVP success story 16 months later! I knew about the potential to earn an incredible income, the Mercedes-Benz, the jewelry, the trips, etc., but I thought that meant you had to work this business like a full-time job with full-time hours. I had resigned from my teaching position seven years ago to stay home with my three children, so working another full-time job did not appeal to me at all. I wanted to work just enough to get my husband off my back and refrain from having to resume my full-time teaching position. Then, I had a turning point in my business when I finally got it. I finally understood the principles of network marketing, the beauty of time leveraging and the meaning of owning my life.

To me, owning my life meant having the time and financial resources to spend on the things I love most. A lot of people have money; they just do not have the time to enjoy it. I do not care about having the biggest house or the best cars; what I care about is having the time to live my life the way I choose. To me, it is about going to the beach for six weeks (like I did last summer) with my family and not worrying about having to take off work or fund the trip. It is about being at home every day to hear the laughter of my children in the front yard and being at all of their school functions and ball games. It is about being able to give back to my parents after all the years they provided for and supported me. It is about having the opportunity to allow my husband a chance to enjoy his life, without having to constantly worry about finances. It is about being able to have someone else do all the chores in the house and yard so my time is freed up to enjoy my children. It is about planning a future for my children and securing it financially. You cannot put a value on these things — they are priceless.

When I started seeing real progress in my business, my reasons for doing it increased as well. I found deep satisfaction helping others to be able to live life the way they wanted, which marked another turning point in my business. When I thought about all the things I could do for others, it suddenly was not just about me and my family anymore. My plan of hanging out at DM shifted gears and I was now on a path headed straight to the top of this company. I do not think God intends for us to keep all the fruits of our labor for our own personal gains. My life had already been blessed enormously and now I was being allowed to help others in ways I never thought would be possible.

Arbonne products are awesome, but the business potential is even better. A lot of people have misconceptions about how I work this business; they think I am selling and delivering lipstick to everyone I know. In actuality, I am simply re-

The Jones family.

directing the money I was already spending on myself and my family to Arbonne's pure, safe, beneficial products and telling others how to do the same. It really is such a simple concept. I have the potential to get paid to shop, and telling others how to do the same. I constantly have people say to me, "It sounds too good to be true, there must be a catch." Arbonne allows each individual to reap the benefits, not just the few that sit at the head of the company.

Since my *Eye on Arbonne* RVP success story was just released three months ago, I fear I may sound redundant in my words of appreciation and gratitude, but I sincerely mean every word. It is not very often in life that a person has a chance to take the time to express their gratitude to others; so I am taking this opportunity here.

To mommy's little angels, Walker, Will and Lauren Kate: All three of you are my driving force in life and in my business. I cherish every moment and memory I have with each of you. Please always know that I love and adore all of you and it brings tears to mommy's eyes every time I think of the depth of love I have for each of you. I hope you all understand why mommy is doing this business. I also hope that you see the value of helping others and giving back to God.

To my husband, Jeremy: I love you more and more every day. We have had 10 wonderful years of marriage and I am looking forward to many more. Thank you for pushing me to be a better person in life. You are a strong Christian man, Jeremy, and that is portrayed in everything you do in life. You are an awesome father to our children and I know they adore you as much as I do. I am grateful for your support and help with my business. I love sharing my life with you.

To my parents, Jim and Billie Walker: I am so fortunate and grateful to have parents who have always shown me unconditional love and support throughout my life. It is hard to express in words the depth of love

and respect I have for the two of you. I appreciate all the help with my children and your help with my business through your product purchases. I love you both.

To my in-laws, Bob and Jerrie: I truly could not have been successful in this business without the two of you. Jerrie, you have no idea what a comforting feeling it is to leave your children with someone you know they love, and enjoy being with, who will take care of them. Thank you both for your unending support and love.

To ENVP Danielle Solley: Thank you for equipping me with the tools to make this business work. You have been a great friend and inspiration to me.

To RVP Donna McClure: I am so inspired by your perseverance and passion for this business. You have chosen to shape your life the way you want it, instead of having life shape you. You have made great strides toward your goals, and I am so proud and honored to have you on my team.

To RVP Brandi Hatfield: I am so proud of the business you have built. You have a driving force like no one else I know. You make me want to work harder and that is a difficult thing to do!

To Catherine and her team: You are such a dear friend to me "sister!" I love you so much and am so impressed by the determination you have shown in building your business. But most of all, I am thrilled to have had the chance to reconnect with you. To everyone on Catherine's team: Do not stop. I know you all can do it. Go, Linda and Julia!

To Shelley and Tori: Both of you have persevered with such amazing determination. It will pay off if you just keep on driving all the way to the top. I love you both and am tickled by the idea of being able to work

continued ...

success strategy:

“ Work this business smart, not hard, so you can have the time and resources to live your life the way you choose. ”

The Birmingham girls: DM Julie Goodrich, DM Linda Davis and AM Catherine Lindsey.

with my friends ... if we can call this work. By the way, Tori, you will have to get the navigation system in your Mercedes-Benz.

To Stacey Peebles: I am so glad to have you as a friend (and sometimes therapist)! I wish you all the success in the world with this business — I know you can do it!

To Beth and Mitzi: You both have persevered and I admire you both so much! Keep on doing all the way to the top!

To Kale and Carol: I am so glad the two of you have joined this business. It is hard to call this work when you have so much fun being with your friends! This means even more trips and time together, not to mention more shopping opportunities, with a personal chauffeur. I love you both and I cherish our friendship so much!

To Kellie, Marcie and Kathy: It is so wonderful to have you all back in Jeremy's and my, life again. You all three are amazing and powerful women. I am so proud of the team you all are building.

To Jamie: You are a powerful leader and I am so proud of your accomplishments. I know you will make it to the top!

To Janet: You have always been a dear friend to me, and I hope that we can pull our teams together, and continue to make this business successful for both of us.

To April: What a whirlwind for you! You have an amazing work ethic. You came into this business full force and continued your momentum. I admire you so much, April.

To all the amazing leaders on my team: I have the great privilege of writing my *Eye on Arbonne* NVP success story because of all of you. We all are working toward a common goal, even though our *Why* may be different. Just keep your *Why* strong and your business simple. Work this business smart, not hard, so you can have the potential time and financial resources to live your life the way you choose. Thank you all for your hard work and determination to make this business work.

Most importantly, I give all my glory in life to God. Without His grace, I would not have such a blessed life. I am so grateful and humbled by His blessings.
